Lebert BUDDY SYSTEM

The Lebert BUDDY SYSTEM is a tandem resistance-training product that makes use of instant and variable tension, and unique unilateral rowing and pressing motions. Portable, cost-effective, flexible, and dynamic, the BUDDY SYSTEM offers new ways to exercise, and can be used for personal training, group exercise, military workouts, boot camps, physical education, and athletic team sessions.

Soft Gym Overball

This small ball is 9" in diameter and has a soft, easy-grip texture. The Soft Gym Overball can be used to promptly correct body position while doing exercises. Great tool for Pilates!

Manufacturer's list price: \$9.70

SpyderCord

OPTP SpyderCord adds dynamic resistance to your workout with this fun and challenging tool. Composed of medium-level tubing joined in an X-shape, the SpyderCord will help you strengthen, tone, and stretch. Includes a 30-page instructional manual.

Manufacturer's list price: \$24.95

**PERFORMANCE DYNAMICS, LLC,
DBA CORE-TEX**

Core-Tex

The Core-Tex represents the next generation of group exercise options. It creates an instant environment in which participants can enjoy challenging, fun-filled workouts that combine balance, reaction, dynamic strength, cardiovascular endurance, and mobility in a single format. The almost infinite number of combinations of movements means that no two workouts are ever the same. The Core-Tex is appropriate for members of all abilities and at all fitness levels, and its small footprint and zero maintenance make it ideal for every type of facility.

Manufacturer's list price: \$595.00
